Rose, the court has secured an independent investigator. She will be interviewing Michele on Friday, December 11, and she would like to begin at 9:00 a.m. The location is still to be determined.

The investigator will be tape recording the interview. That is her standard practice, and she believes that it benefits both parties to have a preserved record. Also, she has hand mobility issues and is unable to take copious notes. You are welcome to have a copy of the recording.

I will continue to provide you information as it becomes available to me.

Thanks, Julie
